

**IS YOUR PHONE TECHNOLOGY STUCK IN THE PAST?
ARE YOU STILL INVESTING IN OLD TECHNOLOGY?**

www.trinustech.com/3com

CONSIDER THIS... WHY ARE MORE AND MORE IP PHONES BEING DEPLOYED?

It's simple:

- Merging voice and data networks is more cost effective
- Moves, adds, and changes are easier
- Advanced applications like IP Messaging and IP Conferencing can be added to your existing system
- Business-focused applications like Integrated E-mail and Automatic Call Distribution come standard
- A complete VoIP with Power over Ethernet solution for less than most "old technology" key systems

3Com's solutions allow you to implement a complete secure, converged network solution. Or, simply deploy VoIP over your existing network infrastructure for a powerful, complementary system experience. Upgrade your telephone system to a 3Com IP Telephony solution. Call us today to get started.
