

Securing today's networking environment is key to your survival.

3Com TippingPoint™ Intrusion Prevention System (IPS)

Network protection from internal and external cyber attacks.

- Protects VoIP infrastructure, routers, switches
- Throttles non-mission critical applications
- Allows legitimate traffic to pass unimpeded

3Com Embedded Firewall Policy Servers and Firewall PC Cards and PCI Cards

Expand security to protect desktops, laptops, servers and PCs connected to internal or external LANs.

3Com OfficeConnect® Perimeter Firewalls/VPN

Act as a first line of defense against Internet threats.

3Com Quarantine Protection

Enables the network to act as an enforcement point to contain or remove offending network users or devices
